

This is my suggestion for the company logo. I found the original image on google, but then I edited it and added new designs and new colors. I made it through the cloud image editor app. If you can't tell, it is a drawing of a boy with airpods on, listening to music. Pretty crisp. - Andrew

Im such a god, i made this- god

This is my suggestion for the music apps logo. I added the fire emoji because it's obviously gonna be a lit app so yeah. Also you can see that i put a lot of work into making this apps logo better than everybody else. I believe ya should choose me - Angel Diaz

Imma win hopefully

# Kiara v's logo

I made this logo as a representation of this website, I did it for fun, I won't choose my own logo.

# My Logos

This is my logo I made it cause I had an idea to make it this way but i also made it like this just for my best friend cause i support her ideas and we often share our ideas so i combined mine and hers to make this logo. :)
